# Safe Distance

Of course in the real world you are not alone on the road. Keep a safe distance to the car in front of you. Also keep an eye on the speed limits and traffic lights.

You will only see what the sensors of you car can see. It maybe that a car suddenly appears or disappears, because it changed lanes or left the road.

Additional Server Message:
```
nextcar <distance> <speed>
```

`distance`	the distance to the car in front of you in meters (2 decimals)
`speed`	the speed of the car in front of you in km/h (2 decimals)

If there is no car in front of you distance and speed will be 0.

Goals Summary:

- Drive a distance of 1500 meters
- Avoid speeding tickets
- Avoid tickets for reckless driving
- Finish the test drive in under 140 seconds
